

WEBSITE PROJECT BRIEF

DHAVDI BIO ENERGY

1. Branding & Visuals

- **Logo:** Official logo file to be provided ("LOGO DHAVDI.jpg").
- **Color Palette:** Primary brand colors to be pulled directly from the logo (Navy Blue, Green, and Metallic/Gold accents) to ensure a cohesive UI.

2. Home Page Strategy

- **Overall Vibe:** Modern, clean, and professional.
- **Hero Section:** An impressive, modern clean energy animation at the top banner to create a strong first impression immediately upon loading.

3. About Us & Core Mission

- **Core Message:** Our primary mission focuses on reducing the carbon footprint and making the region less reliant on gas imports.
- **Facility Details:** Highlight our 3 TPD (Tons Per Day) Compressed Bio-Gas (CBG) manufacturing facility located in Narichana, Gujarat.

4. Products Focus

- **Offerings:** Showcase our solid and liquid organic bio-fertilizers to attract commercial buyers and distributors.
- **Key Selling Point:** These organic bio-fertilizers act as a direct, highly sustainable replacement for traditional NPK fertilizers.
- **Visuals:** Use high-quality, relevant stock imagery to beautifully represent agricultural and fertilizer usage (as actual product photos are not yet available).
